PROFILE

I am an enthusiastic and dedicated front-end developer with a solid foundation in web development and a passion for crafting visually appealing and user-friendly websites. With hands-on experience in technologies like React and TypeScript, I continuously strive to improve my skills and stay updated with the latest web trends. My commitment to delivering exceptional user experiences drives my work, as I aim to bridge the gap between functionality and aesthetics. I am eager to take on new challenges and contribute to innovative projects while continuing my growth journey as a proficient front-end developer.

- HTML5
- CSS3
- SaSS
- Web Responsiveness
- Version Control - Git
- Python
- Javascript
- ReactJs
- Bootstrap
- Debugging
- Web Performance
- API (Restful & Context)

Experience

Frontend Web Developer - Contract

2024-2024

Obafemi Awolowo University Teaching Hospital (OAUTHC)

- Designed a dynamic and responsive website utilizing React framework and TypeScript, focusing on enhancing user experience and performance.
- Collaborated with a team of 2 designers and 5 developers to design a visually appealing user, adhering to project specifications and deadlines.
- Implemented Context API for seamless state management in a 50+ component project, reducing prop drilling and page load times by 20% through optimized RESTful API integration.
- Performed cross-browser and device testing, fixing 15+ critical bugs to ensure smooth functionality across platforms, while documenting code to streamline maintenance and support a team of 5 developers.

Frontend Web Developer - Full Time

2023-2024

CyberBuddies

- Developed two major projects: Havens real estate website and PayBuddies fintech platform using vanilla JavaScript, HTML, and CSS. Collaborated with a team of 10 developers, conducted code presentations, and led debugging sessions.
- Enhanced user experience by implementing responsive, high-performance designs across multiple platforms, resulting in a 30% increase in user engagement and a 20% boost in SEO rankings.
- Integrated seamless front-end functionalities with back-end APIs, enhancing data retrieval speeds by 25% and ensuring a cohesive and intuitive user journey.

- Optimized website performance for effective marketing, leveraging modern UI libraries to build visually appealing and intuitive interfaces.

Frontend Web Developer - Intern

2023-2023

Bestman Computers

- Collaborated in developing 3 real projects by applying vanilla JavaScript, HTML, and CSS.
- Engaged in code reviews and debugging sessions, gaining hands-on experience in version control with Git and following best practices in code documentation.

Certificates

Responsive Web Design

PathwayConnect

Projects

- Havens: Built a comprehensive real estate platform facilitating short-let property listings and property banking, boosting user interaction and property management efficiency.
- OAUTHC: Created a hospital website enabling patients to book appointments online, featuring an admin section for content management and efficient appointment sorting and approval.
- Oasis Estate: Designed a user-friendly real estate website dedicated to listing properties for rent or sale, streamlining the property search process for potential tenants and buyers.
- Patara Hotels: Built an engaging hotel website showcasing amenities and features, with an integrated booking system for reservations and a secure payment gateway for seamless transactions.
