- Bootstrap
- Version Control - Git
- Web Performance

PROFILE

I am an enthusiastic and dedicated front-end developer with a solid foundation in web development and a passion for crafting visually appealing and user-friendly websites. With hands-on experience in technologies like React and TypeScript, I continuously strive to enhance my skills and stay updated with the latest web trends. My commitment to delivering exceptional user experiences drives my work, as I aim to bridge the gap between functionality and aesthetics. I am eager to take on new challenges and contribute to innovative projects while continuing my growth journey as a proficient front-end developer.

WORK EXPERIENCE

Frontend Web Developer - Contract

OAUTHC

2024

As a Front-End Developer for the OAUTHC website project, I was instrumental in creating a dynamic and responsive website for Obafemi Awolowo University using React and TypeScript. My focus was on enhancing user experience and performance, which included implementing complex state management with the Context API for seamless data flow and improved interactions.

I collaborated with designers and back-end developers to build a visually appealing and functional interface that aligned with project specifications. I integrated RESTful APIs for efficient data retrieval, optimizing website performance. Additionally, I conducted testing and debugging to ensure functionality across various devices and browsers while documenting code and processes to support knowledge sharing and maintenance.

Frontend Web Developer - Part Time

CyberBuddies

September 2023 - April, 2024

In my role at CyberBuddies, I played a pivotal role in enhancing user experiences on our social marketing platforms. I collaborated closely with diverse teams, and translated design concepts into high-quality code using HTML, CSS, and JavaScript.

My focus included implementing responsive designs, integrating front-end and back-end functionalities, and optimizing website performance for effective marketing. I leveraged React ensuring up-to-date industry practices. Rigorous testing, code optimization, and documentation were integral to my responsibilities, ensuring a seamless user experience.

Frontend Web Developer - Intern

Bestman Computers

April - September 2023

As an intern web developer, I contributed to real projects by applying HTML, CSS, and JavaScript. I worked collaboratively, meeting deadlines, and embracing user-centric design principles. This experience nurtured my passion for web development, and I'm excited to continue learning and growing in the field.
