Tom
Benjamin
web Developer

"I am an enthusiastic and dedicated front-end developer who is eager to embark on a journey in the world of web development. My passion for creating visually appealing and user-friendly websites drives me forward. While I am committed to learning, growing, and constantly improving my skills, I am equally determined to become an accomplished front-end developer. My dedication to staying updated with the latest web technologies and my commitment to crafting exceptional user experiences are the driving forces behind my journey in the field of web development."

- Web Performance

WORK EXPERIENCE

CyberBuddies   September 2023 - April 2024

In my role at CyberBuddies, I played a pivotal role in enhancing user experiences on our social marketing platforms. I collaborated closely with diverse teams, and translated design concepts into high-quality code using HTML, CSS, and JavaScript. My focus included implementing responsive designs, integrating front-end and back-end functionalities, and optimizing website performance for effective marketing. I leveraged React ensuring up-to-date industry practices. Rigorous testing, code optimization, and documentation were integral to my responsibilities, ensuring a seamless user experience.

Freelance Web Developer   2023

I've been working as a freelance Web Developer, crafting websites with creativity and precision. My projects include designing and coding responsive websites, enhancing user experiences, and ensuring functionality across various browsers and devices. I've collaborated with clients to bring their visions to life, using a variety of web technologies and programming languages.

Intern   April - September, 2023

Bestman Computers

As an intern web developer, I contributed to real projects by applying HTML, CSS, and JavaScript. I worked collaboratively, meeting deadlines, and embracing user-centric design principles. This experience nurtured my passion for web development, and I'm excited to continue learning and growing in the field.
